### **DETAILED ACTION**

1. Upon further consideration, the following is a second restriction. Any inconvenience is regretted.

### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-3, 5-11, 13-23, drawn to the structure of a pallet, classified in class 108, subclass 51.11.
  - II. Claim 12, drawn to the method, classified in class 29, subclass 407.01.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process such as in a warehouse.

### ***Conclusion***
